## LED Heliport Perimeter Light

### ICAO Type:

Touchdown and lift-off area  
 perimeter light for helicopter non-  
 instrument and non-precision  
 approaches.

### Compliant to:

ICAO Annex 14, Vol II, 1999

Our heliport perimeter lights provide  
 an LED based solution to the ICAO  
 touchdown and lift-off area perimeter  
 style of steady-burning lights. The  
 lights are currently available in yellow  
 or green LEDs operating at 120, 240  
 VAC or 12, 24 VDC. Each  
 configuration is available as original  
 equipment or as direct lens/lamp field  
 retrofit to existing conventional light  
 bases.

- Lasts up to 20 times longer than  
 an incandescent light
- 95% less power than an equivalent  
 incandescent light
- 5-watts power consumption
- Available in yellow or green LEDs
- Weather/corrosion resistant
- Self contained wiring compartment  
 eliminates additional boxes
- Can be operated as steady-burning  
 or flashing light
- Resistant to shock and vibration
- Direct replacement for existing  
 incandescent lighting
- 5 year warranty
