Portable Heliport Lighting System HL-PHLS

Applications

The Flight Light Inc. Portable Heliport Lighting System (HL-PHLS) provides perimeter lighting for semi-permanent, temporary or emergency helipad touchdown and lift-off zones (TLOF).

PHLS Package 1 - Solar LED

Package 1 features solar powered AV70 lights. These completely self-contained LED lights can be installed in minutes and require minimal maintenance. Dual internal high-performance solar modules maximize solar collection and provide reliable operation in a range of environments. A user-replaceable battery ensures a service life of up to 12 years.

AV70 Solar
Aviation Light

This package also includes a Solar Series portable internally lighted wind cone. Being 100% solar powered, installation is incredibly fast - no need for trenching, cabling, or electrical services. A long life, low power LED floodlight and patented maintenance-free swivel help reduce airfield down time. The Solar Series wind cone includes a portable all-aluminum tripod that can be set up quickly. ICAO compliant.

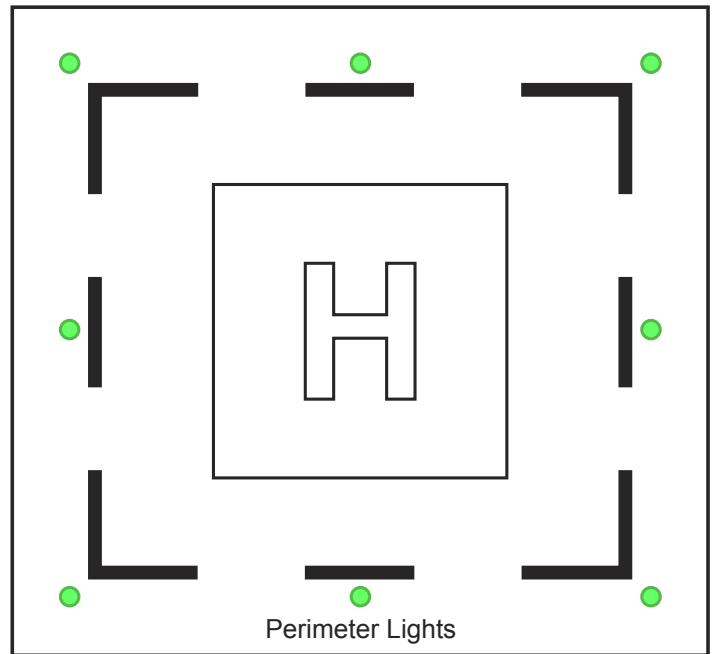

Solar Series
Portable Wind Cone

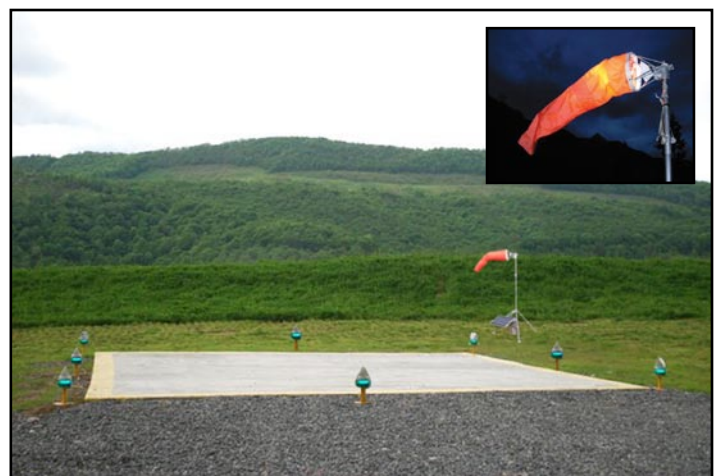

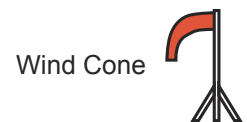

- No trenching required, easily deployed.
- 100% solar powered, integrated solar/battery.
- Long life, low maintenance.
- Automatic night activation.
- ICAO compliant.

Included:

- [8] AV70 Solar Aviation Lights (green) with Ground Stake Mounts
- [1] Solar Series Portable Wind Cone: Size 1 (18" diameter x 6' long) wind sock, solar LED AV70 red obstruction light

Please Note: This drawing is not to scale and is for informational purposes only. All heliports must comply with FAA Advisory Circular 150/5390-2B. Contact your local FAA office with questions.

Portable Heliport Lighting System HL-PHLS

PHLS Package 2 - LED

Package 2 includes LED heliport perimeter lights. Long life, low power LEDs use 95% less energy and last up to 20 times longer than equivalent incandescent lights. This weather/corrosion resistant fixture comes with a 5 year warranty.

- Long life, low maintenance.
- 5-watts power consumption.
- 120, 240 VAC or 12, 24 VDC.
- ICAO compliant.

Included:

[8] LED Heliport Perimeter Lights (green)

Note: Customer to provide power cables and generator/battery.

LED Heliport Perimeter Light

PHLS Package 3 - Incandescent

Package 3 features medium intensity portable elevated incandescent lights.

- Fully assembled and ready to go.
- Up to 8,000 hours rated lamp life.
- 120V circuit.
- Optional sandbag plate sold separately.

Included:

[8] Medium Intensity Portable Elevated Lights (green)

Note: Customer to provide power cables and generator/battery.
